

Exhibit "B"

IN THE UNITED STATES DISTRICT COURT
FOR THE MIDDLE DISTRICT OF ALABAMA
EASTERN DIVISION

KYLE BENGSTON,

PLAINTIFF,

v.

DAVID BAZEMORE, O.D. et. al

DEFENDANTS.

3:06-CV-00569-MEF

AFFIDAVIT OF GREGORY J. SEPANSKI, M.D.

This affidavit is based on my personal knowledge as a treating physician of Kyle Bengtson. I am a board certified ophthalmologist practicing ophthalmology in Lee County, Alabama. My credentials are more fully set forth in my c.v. attached hereto as Exhibit "A".

After a review of my medical chart and records for Kyle Bengtson, Wal-Mart's August 20, 2004 optometry exam notes for Kyle Bengtson, and Dr. Reid Cooper, M.D.'s February 18, 2005, and February 25, 2005, medical chart notes for Kyle Bengtson, it is my professional opinion that Kyle Bengtson was suffering from angle closure glaucoma in his right eye upon his initial visit to my office in March, 2005. Mr. Bengtson was suffering from either chronic or subacute angle closure glaucoma at that time because he was not complaining of pain, he had significant optic nerve cupping, and afferent pupillary defect. Afferent pupillary defect results when there has been damage to the optic nerve over an extended period of time. Upon this initial visit Mr. Bengtson was absolutely not suffering an acute angle closure attack.

Based upon Wal-Mart optometry exam notes of August 20, 2004, Mr. Bengtson had an unexplained diminished best corrected vision in his right eye. At the time of the August 20, 2004, exam he was in all probability suffering from subacute angle closure glaucoma.

Had Mr. Bengtson been referred for ophthalmic evaluation on August 20, 2004, his vision loss in all likelihood would have been prevented.

Further affiant sayeth not."

Gregory J. Sepanski, M.D.

Affidavit of Gregory J. Sepanski, M.D.
